

§ 10010.37

(b) If the EIS is intended to serve as the vehicle to fully or partially comply with the requirements of other federal or state laws and regulations, the associated analyses, studies, or surveys will be identified as such and discussed in the text of the EIS and the cover sheet will so indicate. Any supporting analyses or reports to the NEPA documents will be incorporated by reference or included as an appendix and shall be sent to reviewing agencies as appropriate in accordance with applicable regulations or procedures.

§ 10010.37 Inviting comments.

(a) Comments from State agencies will be requested through procedures established by the Governor pursuant to Executive Order 12372, and may be requested from local agencies through these procedures to the extent that they include the affected local jurisdictions.

(b) When the proposed action may affect the environment of an Indian reservation, comments will be requested from the Indian tribe through the tribal governing body, unless the tribal governing body has designated an alternate review process.

§ 10010.38 Response to comments.

(a) Preparation of a final EIS need not be delayed in those cases where a Federal agency, from which comments are required to be obtained (40 CFR 1503.1(a)(1)), does not comment within the prescribed time period. Informal attempts will be made to determine the status of any such comments and every reasonable attempt should be made to include the comments and a response in the final EIS.

(b) When other commentors are late, their comments should be included in the final EIS to the extent practicable.

§ 10010.39 Elimination of duplication with state and local procedures.

The Commission will incorporate in its appropriate program regulations provisions for the preparation of an EIS by a State agency to the extent authorized in section 102(2)(D) of NEPA.

43 CFR Ch. III (10–1–03 Edition)

§ 10010.40 Combining documents.

Incorporating documentation requirements of other environmental regulations into an EIS is both acceptable and desirable. If the EIS is combined with another planning or decision making document, the section which analyzes the environmental consequences of the proposal and its alternatives will be clearly and separately identified and not interwoven into other portions of or spread throughout the document.

§ 10010.41 Commission responsibility.

A Commission sponsored environmental document may be prepared by the Commission, a joint-lead agency, a contractor selected or approved by the Commission, or, when appropriate, a cooperating agency. Regardless, the Commission has the responsibility to independently evaluate and draw appropriate conclusions. Following the Commission's preparation or independent evaluation of and assumption of responsibility for an environmental document, an applicant may print it provided the applicant is bearing the cost of the document pursuant to other laws.

§ 10010.42 Public involvement.

The Commission will adhere to CEQ requirements regarding the use of public notices, public meetings, public review of NEPA documents, and other techniques to ensure that the public has ample opportunity to provide input into the proceedings and to ensure that the Commission will give due consideration to this input.

§ 10010.43 Further guidance.

The Commission may provide further guidance concerning NEPA pursuant to its organizational responsibilities and through supplemental directives.

§ 10010.44 Proposals for legislation.

(a) When appropriate, the Commission shall identify in the annual submittal to the Office of Management and Budget of the Commission's proposed legislative program any requirements for and the status of any environmental documents.

(b) When required, the Commission shall ensure that a legislative EIS is

§ 10010.53

included as a part of the formal transmittal of a legislative proposal to the Congress.

§ 10010.45 Time periods.

(a) The minimum review period for a draft EIS will be sixty (60) days from the date of transmittal to the Environmental Protection Agency.

(b) The Commission will be responsible for consulting with the Environmental Protection Agency and/or CEQ about any proposed reductions in time periods or any extensions of time periods proposed by those agencies.

Subpart E—Relationship to Decision-Making

§ 10010.46 Purpose.

This subpart provides supplementary instructions for implementing those portions of the CEQ regulations pertaining to decision-making.

§ 10010.47 Pre-decision referrals to CEQ.

(a) Upon receipt of advice that another Federal agency intends to refer a Commission matter to CEQ, the Commission will immediately meet with that Federal agency to attempt to resolve the issues raised.

(b) Upon any referral of a Commission matter to CEQ by another Federal agency, the Executive Director will be responsible for coordinating the Commission's position.

§ 10010.48 Decision-making procedures.

(a) Procedures by which the Commission makes decisions are specified in 43 CFR part 10000.

(b) The Commission will incorporate in its formal decision-making procedures provisions for consideration of environmental factors and relevant environmental documents. The major decision points for principal programs likely to have significant environmental effects will be clearly identified.

(c) Relevant environmental documents, including supplements, will be included as part of the record in formal rule making or adjudicatory proceedings.

(d) Relevant environmental documents, comments, and responses will accompany proposals through existing review processes so that Commission officials use them in making decisions.

(e) The decision-maker will consider the environmental impacts of the entire range of alternatives described in any relevant environmental document; the range of these alternatives must encompass the actual alternatives considered by the decision-maker.

§ 10010.49 Record of decision.

(a) Any decision documents prepared for proposals involving an EIS may incorporate all appropriate provisions of 40 CFR 1505.2 (b) and (c).

(b) If a decision document incorporating these provisions is made available to the public following a decision, it will serve the purpose of a record of decision.

§ 10010.50 Implementing the decision.

The terms "monitoring" and "conditions" in 40 CFR 1505.3 of the CEQ regulations will be interpreted as being relevant to factors affecting the quality of the human environment.

§ 10010.51 Limitations on actions.

The Executive Director will notify the Chairman of the Commission and the Office of the Solicitor of any situations where Commission or applicant action would, if taken prior to completion of a NEPA proceeding, potentially have an adverse environmental impact or limit the choice of reasonable alternatives.

§ 10010.52 Timing of actions.

The Commission will consult with the Office of the Solicitor before making any request for reducing the time period before a decision or action.

§ 10010.53 Emergencies.

In the event of an unanticipated emergency situation, the Commission will immediately take any necessary action to prevent or reduce risks to public health or safety or serious resource losses and then expeditiously consult with the Office of the Solicitor about compliance with NEPA. The Commission will also be responsible for consulting with CEQ.
